DETAILED ACTION

Allowable Subject Matter

1. Claims 1-17 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's arguments, see p. 5, lines 20-26, filed 13 February 2006, with respect to claim 1 have been fully considered and are persuasive. The rejection under 35 U.S.C. §102(e) of those has been withdrawn.

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the needle assembly having a needle, a body attached to and in fluid communication with the needle, a base attached to the body where movement of the needle assembly from an insertion position to a protective position expunges fluid from the body through the distal end of the needle in combination with the other elements (or steps) in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
